

ROCKY MOUNTAIN AIRCRAFT

COCKPIT UNDERFLOOR DUCTING

Using state of the art manufacturing techniques, Rocky Mountain Aircraft has engineered a high quality air duct created from high performance polymers.

This will ensure durability and ease of installation. Mounting provisions are incorporated into the design. As a result, versatility and strength are achieved.

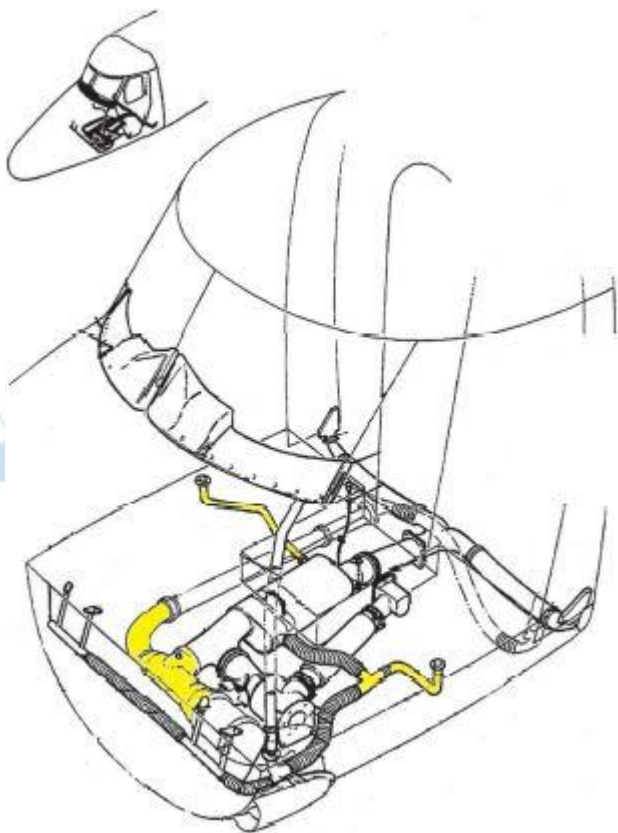

ROCKY MOUNTAIN AIRCRAFT

OEM P/N	RMA PDA P/N	DESCRIPTION
C6VF1149-1	RMA-C6VF1149-1	Y-DUCT

OEM P/N	RMA PDA P/N	DESCRIPTION
C6VF1050-3SP	RMA-C6VF1050-3SP	DUCT
C6VF1062-1SP	RMA-C6VF1062-1SP	DUCT
C6VF1145-1	RMA-C6VF1145-1	DUCT

TYPICAL PROPERTIES:

Passes FAR 23.853, Flammability

Strength: 5700-6700 psi (39-46 Mps)

Transport Canada PDA Approved: PDA 13-4

Product made by Rocky Mountain Aircraft
