

# DHC-6 MASTER CAUTION PANEL

## LOOKING FOR WEIGHT AND MAINTENANCE SAVINGS

Installed in accordance TCCA SA17-78 or FAA SA04033NY STC the MCP03 replaces the aircraft's existing caution light panel and dimming control box with the single LRU

## DHC-6 MASTER CAUTION PANEL

Designed for Viking Air Limited (deHavilland) Twin Otter 100-, 200-, and 300-Series aircraft, the compact, modern MCP03 brings together various caution/warning lights from throughout the cockpit into a single, clean component.

All-new LED display technology gives you excellent readability in sunlight. The MCP03 is a smart, customizable, multi-functional component that is fully qualified to DO-160G.

A COMPACT, MODERN CAUTION PANEL FOR THE DHC-6 TWIN OTTER AIRCRAFT
